- Social Engineering
- Web Application Assessment

Incident Response and Compromise Assessment

- Malware and Incident Response Retainer Services
- Incident Readiness Assessment
- Emergency Incident Response

Training

- Custom Incident Response and Forensics Training
- ICS for Beginners (SANS)

About Cylance

Cylance is the first company to apply artificial intelligence, algorithmic science and machine learning to cybersecurity and improve the way companies, governments and end-users proactively solve the world's most difficult security problems.

Using a breakthrough predictive analysis process, Cylance quickly and accurately identifies what is safe and what is a threat, not just what is in a blacklist or whitelist. By coupling sophisticated machine learning and artificial intelligence with a unique understanding of a hacker's mentality, Cylance provides the technology and services to be truly predictive and preventive against advanced threats.
